

MYSA Ajax United Uniform & Player Number Policy

At MYSA Ajax United, player numbers are an important part of each athlete's identity within the club. To maintain consistency, organization, and fairness across all teams, the following uniform and player number policy will apply to all players and teams.

Returning Player Number Retention

- Returning Ajax United players in good standing will retain their assigned uniform number each seasonal year they continue with the club.
- Number retention applies only if the player remains continuously registered and returns for the following seasonal year.
- Players moving between teams within the club may also retain their number when possible.

New Player Number Assignment

- New players joining Ajax United will be assigned an available uniform number that is not currently reserved or assigned to another returning player.
- Number requests may be submitted; however, requests are not guaranteed and will be based on availability and club approval.

Duplicate Number Situations

In situations where two players on the same team request or hold the same number:

- The number priority will be given to the returning Ajax United player with greater club seniority.
- Seniority is determined by the player's continuous years registered with MYSA Ajax United.

- If both players have equal tenure, the final determination will be made by club administration.

Club Authority

- MYSA Ajax United reserves the right to assign, adjust, or reassign player numbers when necessary due to roster changes, league requirements, or operational needs.
- Certain numbers may be restricted or reserved at the club's discretion.

Uniform Ordering

- Players and families are responsible for ensuring their assigned number is correctly entered into their BYGA profile before uniform ordering deadlines.
- Uniform orders placed with incorrect numbers due to failure to update profiles may result in additional replacement costs to the family.

Final Approval

All player numbers and uniform assignments are subject to final approval by MYSA Ajax United administration.

Thank you for helping us maintain a professional and organized environment across all Ajax United teams.
